**TRANSPORTATION SECURITY ADMINISTRATION
EXPLOSIVE DETECTION SYSTEM (“EDS”) PERFORMANCE-BASED LOGISTICS (“PBL”)**

The Transportation Security Administration (“TSA”) contracts the Explosive Detection System (“EDS”) Performance-Based Logistics (“PBL”) services for the establishment, implementation, and maintenance of a sustainment and logistics support program for out-of-warranty Government-certified EDS Transportation Security Equipment (“TSE”), and associated Uninterruptible Power Supplies (“UPS”), deployed and operated by TSA (the “Technology”). The pertinent TSEs are deployed at Category X through IV airports and other Government-designated facilities throughout the United States and its territories. The attendant Performance Work Statement (“PWS”) for the contract includes:

- Program Management,
- Quality Assurance (“QA”),
- Configuration Management,
- PBL services,
- Dispatch services, and
- Associated Information Technology (“IT”) infrastructure to support all the required services.
